PROVENTUS CYBERSECURITY AND CAMPIT CONFERENCES PARTNER TO DELIVER ORGANIZATIONAL CYBERSECURITY AWARENESS TRAINING TO ENTERPRISES AND MID-MARKET COMPANIES

Organizations Can Help Mitigate Risk by Providing Their Users with Real-world Cybersecurity Awareness Training

ALISO VIEJO, Calif. and SKOKIE, Ill. – April 15, 2019 – Proventus Cybersecurity, Inc., a leading provider of business-centric cybersecurity products, services and training, today announced a partnership with Camp Conferences, Inc. (CampIT), an event organizer that delivers Enterprise IT Education & IT Career Development to IT and cybersecurity professionals. Under the terms of the agreement, Proventus Cybersecurity will offer its Organizational Cybersecurity Training to Camp Conferences’ customers that are looking to provide cybersecurity training to their employees, contractors, and management.

Nearly 40% of reported data breaches are a direct result of human error. Cybersecurity professionals are faced with a broad range of constant challenges such as overburdened staff and inadequate IT security budgets, close the skill gap, and of course internal and external threats. Proventus Cybersecurity and Camp Conferences will leverage their practical approaches of training and education to provide a grass-roots approach to cybersecurity training. This enables Camp Conferences to offer high-value training to their customer’s staff – providing a complete cybersecurity training program.

Proventus Cybersecurity takes a practical approach to train employees on every level to develop an understanding of cybersecurity. The Organizational Cybersecurity Training course teaches the necessity of cybersecurity and why it’s important to be vigilant in and out of the workplace. The goal is to empower employees to identify possible malicious threats and take the proper action based on policies and proper

procedures, protecting corporate credentials and advocating “Zero Trust” resulting in reduced human error to mitigate risk. Training is conducted by practitioners who are experienced CISOs that understand the cybersecurity challenges an organization faces.

“Part of any organization’s cybersecurity initiative is to mitigate risk caused by human error,” said Joseph Turner, Co-founder and Chief Intelligence Officer of Proventus Cybersecurity, Inc. “Together, Proventus Cybersecurity and Camp Conferences will now provide a comprehensive, practical, and business-centric approach to deliver cybersecurity awareness training to every level within an organization, from senior management on down that will help to mitigate overall cyber risks, maintain compliance, and possibly reduce a company’s cybersecurity insurance premium.”

In addition, Proventus Cybersecurity can also work with the organization’s cybersecurity team for any customized training they may want to include. Training is conducted onsite; however, offsite training is also available if requested. This is a one-day training course for up to 50 employees per day so training can be succinctly targeted to the attendees. Proventus Cybersecurity has developed a comprehensive portfolio of “Business-centric Cybersecurity” products, services and training to help organizations protect their business, processes, and employees. Proventus Cybersecurity works with the client to deliver a perfectly matched set of cybersecurity offerings based on their specific business needs. “We are pleased to partner with Proventus Cybersecurity to deliver a unique and much-needed cybersecurity training offering to our customers,” said Dan Horwich, President and Executive Director of CampIT Conferences. “We have been educating IT and cybersecurity executives, management, and staff through highly focused conferences that help organizations develop their strategies and tactics while providing a venue for peer to peer networking for over three decades. Teaming up with Proventus Cybersecurity, we can now extend to our CampIT attendees’ success within their organization at a grass roots level.”

All of CampIT attendees are specifically from IT departments. Since CampIT’s founding in 1984, over 32,000 CIOs, IT executives, managers, and staff, representing over 5,500 individual companies, government agencies, and educational institutions, have grown in their careers by participating in our one and two-day conferences.

CampIT structures their conferences with a singular commitment to helping IT executives, management and staffs succeed in their respective careers. Content is shaped to help attendees work through significant internal IT challenges from both business and technical perspectives, and at every conference, featured speakers from IT departments share their personal insights and experiences.

About Proventus Cybersecurity, Inc.

Proventus Cybersecurity, Inc. was formed with the vision to help companies secure their systems and processes, resulting in sustainable cyber-resilience that the company can rely on. In a world where senior management is personally liable for issues such as proper cybersecurity controls and policies, personal data privacy, reporting, and compliance – cybersecurity is no longer an option to be dealt with “when the time comes,” but rather a basic, fundamental part of the business process. Without effective cybersecurity, the company and its senior management are exposed to cyber-attacks, data breaches, lawsuits, loss of reputation, and other legal implications. Proventus Cybersecurity, Inc. offers best of breed cybersecurity products, services and training, all focused on reducing the cyber-risk the company is exposed to. With years of experience spanning the government, public and private sectors. Connecting the worlds of cybersecurity, IT and business, Proventus Cybersecurity, Inc. offers a client-specific tailored solution. For more information, visit www.proventusinc.com.

About CampIT

Since 1984, CampIT Conferences has produced events designed to help IT professionals understand new technologies and make the critical, strategic and tactical decisions for their enterprises. CampIT’s speakers all have practical experience in their topic area, as well as excellent presentation skills. Over 35,000 enterprise IT executives, management and technical staff representing over 6,000 individual organizations have been to CampIT. We structure our conferences with a singular commitment to helping IT executives, management and staffs succeed in their respective careers. Our content is shaped to help attendees work through significant internal IT challenges from both business and technical perspectives, and at every conference, we feature speakers from IT departments sharing their personal insights and experiences.
